James T. Farmer : Porch Living before purchasing it in order to gauge whether or not it would be worth my time, and all praised Porch Living:

0 of 0 people found the following review helpful. Good style By Linny Beautiful ideas for resting on the porch, entertaining there, even sleeping right outside on the porch. Easy elegance. 0 of 0 people found the following review helpful. More to the "room" porch By KissaMew I was expecting a more rural type of book. Meaning a little more laid back in decorating the porch. The porches featured are very nice, just more on the "upscale" side than farm and country style in most cases. I was looking for a more urban look. Still, enjoy the pictures and settings if you are looking just for pleasure. 0 of 0 people found the following review helpful. Five Stars By anna bayti Excellent ideas

The happy space nestled betwixt nature and nest. Nostalgic yet modernly apropos, Porch Living provides the venue of venues to grasp the goodness of both the home and garden. From the contemporary yet classically rooted outdoor fabrics and furnishings that make porches chic and cherished, to the hanging baskets and planters chock-full of seasonal delights, today's porches offer comfort and elegance, and, most importantly, an addition to the home and garden. Whether jettisoned boldly into parterres aplenty or delightfully diminutive, a grand outdoor salon or sleeping nook, the porch represents how we live and how to gloriously live hinged to and romantically suspended in the home

Sit back a spell (on a porch, if possible) and savor gorgeous photographs by Helen Norman that illustrate just how easy and elegant outdoor living can be. Whether with a pretty tabletop or a swinging bed, this book inspires with hundreds of ideas for America's favorite room—the porch. (Amy Elbert Traditional Home July August 2012 2012-07-01) From the Inside Flap Once shady places to greet neighbors and retreat from a rainstorm, porches have now claimed their place as prime outdoor living and gardening spaces. It is where we dine al fresco, take respite from the heat, shelter from the rain, steal twenty winks, tend our prized begonias or nuzzle next to a fire. That happy medium nestled betwixt nature and nest, our porches are for living! Nostalgic yet modernly apropos, porches provide the venue of venues to grasp the goodness of both the home and garden.
