Outstanding CookbookBy BaazumiSimply outstanding in every respect - Wonderful and unique receipes for potatoes, simple to follow instructions, listed ingredients separate from receipes for ease of preparation, and great photographs. This book doesn't rely on the old standards for potatoes and offers many interesting and tasteful receipes for both non-dairy and dairy diets. I've purchased three cookbooks to date, 2 for gifts and one for myself. These people should be proud of producing such a nice cookbook - thanks.0 of 1 people found the following review helpful. The tiniest version of the bookBy DeborahI have had the original version, which is much much larger, for years. My rabbits had chewed it up mercilessly though so I wanted to replace it. This book is about one quarter the size of the original. Cute. But not what I thought I was ordering. Who knew miniature versions of books are now available. ??

Transform the humble potato into delicious dishes from around the world.
