McFarlandEarl Proulux is famous for his fascinating and useful column in Yankee Magazine. Don't have time to search over hundreds of past issues to try to solve a problem? This book is a compilation of helpful advice from the master of ingenious answers. It is divided into appropriate sections such as cleaning, animal pests, cooking, household repairs and many others. Each section can be a great read by itself but it is also useful as a reference since it has a thorough index to quickly locate the solution to any problem. Whether it is getting rid of an odor, cleaning an unusual stain or fixing a creaking floorboard, there are simple solutions here for almost any problem. Some will leave you wondering who tried it first and why (like rubbing table salt and a piece aluminum flatware in your hand to remove onion and garlic odors from your hands), but the end result is the same, it works. Get the book and keep it someplace where you can grab it in a hurry, you never know when you will need it.

"America's Favorite Handyman" offers hundreds of money and time-saving tips for all kinds of lifestyle problems--a collection of practical solutions for real-life household dilemmas. 127 illustrations.
