Not in line with realityBy Old GuyAfter reading that if you exposed to high levels of heat you could die of heat loss (OK, an editing problem), we move into the list of "the following items in your bug out

bag" -- 2 sleeping bags (at least 5 lbs), 50 boxes of match, 60-70 lighters and 50 flint bars (gotta be 10 lbs), 50-70 flashlights, headlamps and lanterns and 10-20 handcranks (20 lbs), at least 30 survival knives (at least another 20 lbs), 5 10-person tents (another 50lbs), then a bunch of tools. In a bug out bag?? Way over 100lbs and a huge bag. There is a lot more to add after this bunch. The book lost all credibility for me. 0 of 0 people found the following review helpful. Good book
