By Yet Another Semi-Anonymous Customer I'm very careful with books but the cover came away from the spine almost as soon as I opened it, and the spine broke by the time I reached Chapter 4. Now pages are falling out. My instructor's copy is just as bad. Textbooks are far too expensive to fall to pieces like this! 0 of 0 people found the following review helpful. The book binding is very poor quality. It starts falling apart very quickly. I have to be careful reading it, and I'm not rough with my stuff! 0 of 0 people found the following review helpful. Great for future reference By Jordan Foley Bought this for a class and it came in extremely handy for that purpose, but I'm also keeping it for after graduation
