people found the following review helpful. Five StarsBy Fred DeSMETGood read and easy projects0 of 0 people found the following review helpful. was really needing more than just a few projects, ...By Pamelawas really needing more than just a few projects, I was thinking that there was going to be more projects that would help reduce my footprint in different living situations.

Instructables is back with this compact book focused on a series of projects designed to get you thinking creatively about thinking green. Twenty Instructables illustrate just how simple it can be to make your own backyard chicken coop, or turn a wine barrel into a rainwater collector. Illustrated with dozens of full-color photographs per project accompanying easy-to-follow instructions, this Instructables collection utilizes the best that the online community has to offer, turning a far-reaching group of people into a mammoth database churning out ideas to make life better, easier, and in this case, greener, as this volume exemplifies.

About the AuthorInstructables.com is a bona fide Internet sensation, a web-based community of motivated do-it-yourselfers who contribute invaluable how-to guides to the site on a wide range of topics, from gardening and home repair to recipes to gadgets that defy categorization. The site hosts more than 100,000 projects. More than 15 million people visit the site each month, leaving comments and suggestions on the ever-growing list of do-it-yourself projects. Noah Weinstein is an editor at Instructables.com, co-founder of SF Media Labs and spends time making things both big and small at his shop in Oakland, CA. He has worked as a white water rafting guide, custom speaker builder, sheep shepherd, and tractor driver. He earned a BA from Brown University where he concentrated in environmental studies and visual art.
