Richard Ervasti, Mary Ervasti : Prosperity Power Tools before purchasing it in order to gauge whether or not it would be worth my time, and all praised Prosperity Power Tools:

Worldwide TV celebrity shares his rags to riches secret. His bestselling book, Prosperity Power Tools tells how he went from being jobless and homeless to making over \$2 million a year in Hollywood. These simple yet powerful techniques will jump start your personal, business, and financial potential.

From the Back Cover TV announcer and wife share their rags-to-riches secret! What are the true keys to prosperity? After years of failed attempts to start their own businesses, Dick and Mary Ervasti asked that very question. And they found some astonishing answers! They discovered that they were not ready for prosperity. What they needed was to

Prepare for the awesome responsibility that accompanied wealth. That discovery led them on a fascinating journey through the ancient scriptures., As they sifted through the pages and chapters of both the Old and New Testaments they found well over 100 inter-related scriptures that pertain to prosperous living and humankind's God-given authority over such things as money, health, and personal potential. And the journey continues with each new day! They learned that Heaven has given each of us Prosperity Power Tools so we can grow in faith, day by day, to a place where we can handle large amounts of wealth not only for personal gain, but also to benefit all of humankind! Join them on this honorable journey and get ready for a life of prosperity and greatness! About the Author You may not recognize his face, but, if you watch TV, you'll recognize Dick Ervasti's voice. As a voice actor for such programs as Sunday football and a daily TV news magazine, Dick earns an average of \$2,000 an hour. Mary Ervasti is a Bible teacher. Her public ministry focuses on practical application of the Holy Scriptures to everyday life. Dick and Mary and their family reside in Southern California. Excerpt. Reprinted by permission. From the Chapter 1: We believe the only true path to lasting and prosperous wealth is one where you need not lose your health, your inner peace, or the joy that comes through experiencing loving relationships. That is why the prosperity that is made available to you in this book is one of peace, joy, and health, not stress and pressure. Now more than ever we've come to realize that time is truly the world's most precious commodity. When we don't have enough time, we simply are not able to do all the things we really want. Consequently, many of us are forced to make choices that, in the long run, compromise our dreams, desires and social responsibilities. That's really what this book is all about; having plenty of time to make the right choices for our future. We believe that each one of us always has a choice about everything in life. Back in the early 1980's when I (Dick) was a down-and-out radio announcer in the Midwestern United States, I made some pretty poor choices in my life. I was a compulsive entrepreneur, and my addiction became very destructive. I had made several attempts to start up a business of my own. Each was met with an increasing degree of failure. Bankruptcy became an inevitable choice. I suddenly found myself homeless and jobless, without a penny to my name. The first thing I had to do was find work ... any work, so I humbled myself and got a job flipping hamburgers at a local fast food place. It ended up being just what the doctor ordered. During that time, my afternoons were some of the best times of healing that I can remember. I'd walk around the big lake just down the street, meditating and praying about my circumstances. Essentially, I asked Heaven for the means and the Wisdom to become wealthy - not just for my own sake - but also to be of service to humankind. After all, I professed to be a Christian, shouldn't I try and do everything I could to be Jesus to the world? Rest assured, I wasn't fooling myself with these prayers. I knew that I would have to spend many years of serious inner work in order to be ready to tackle these new goals. It was during this important time in 1985 that the seeds were planted for this book and the transforming solutions it offers.
