Backing of book very loose and feels like it won't stay together longBy CustomerBacking of book very loose and feels like it won't stay together long. Contents are very helpful. Sorry the book is assembled so poorly.0 of 0 people found the following review helpful. Five StarsBy VanMee RhorerGreat book. Has been is pruning away!0 of 0 people found the following review helpful. Four StarsBy Elizabeth A.good useful basic information

An easy-to-follow manual for successful pruning without stress, from basic principles to more advanced techniques. Here is pruning guidance for every type of plant, from roses and climbers to hedges, fruit trees, cordons and esapaliers, shrubs and fruit bushes. Step-by-step photographic techniques and artworks make it simple.

About the Author Peter McHoy is a well-known and highly respected author and journalist. He has written books on many gardening and houseplant topics, and has compiled and edited important gardening works such as *The Gardening Encyclopedia* and *The Gardener's Diary*. He started his career as a seed analyst, but soon moved into magazine journalism so that he could share his enthusiasm for plants and gardens. He has written more than 60 books, and also runs a horticultural photographic library.
