Geoff Hodge : Pruning before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pruning:

Aimed at new and amateur gardeners, this insightful resource explains both the why and the how-to behind successful pruning. Information is provided on all the fundamentals, including which types of plants need pruning, when to prune, and how to use tools properly. Comprehensive step-by-step instructions demonstrate how to properly prune a wide variety of garden plants among them shrubs, climbers and vines, trees, and roses as is information on how to deal with annuals, perennials, and bulbs.

About the Author Geoff Hodge is a horticultural journalist who has written for Amateur Gardening, Garden Answers, Garden News, and Practical Gardening magazines. He is the author of Bulbs.
