She presents numerous images of serene and unassuming design concepts that can be recreated or imitated easily. The book demonstrates that beauty can be found and created by displaying simple, everyday objects. Pure Style Outdoors offers inspiration for those of us who have up till now avoided decorating or updating their outdoor spaces.4 of 4 people found the following review helpful. FoodBy A CustomerI loved this book. Mostly the simple food ideas Jane has. Her writing style makes me want to go outside and eat a simple meal and enjoy the world around me. I wish she would write a Pure Style cookbook with the way she prepares every day food she and her family enjoys. I'd love to go to Jane's some summer afternoon and have a great meal or a winter evening by the roaring fire.
