So much useful information!By MelissaI was looking for a book with quick or simple updates and ideas that I could do myslef. I am not a professional. This book has tons of picture examples and guidelines for things to look for, so I could adapt the concepts to my own home. It is exactly what I was looking for! It's given me several ideas, from quick weekend projects (replacing the window and door frames), to some bigger project plans (landscaping).0 of 0 people found the following review helpful.
