29 of 30 people found the following review helpful. don't botherBy A CustomerIf you are looking for detailed information about how to maintain the quality of your spa water ... forget it. It's not there. This little book only has the most cursory information on maintaining water quality in a spa.For me, the book was an utter disappointment.35 of 39 people found the following review helpful. A simple and clear book for pool owners.By A CustomerThis is a simple book with a great deal of information. It provides basic information without a great deal of fuss.The simple line drawings and hands-on approach help lead to a clear understanding of the topic. A practical book for this subject.

The Quick Guide Series is packed with step-by-step information on home repairs and improvements. These weekend projects are ideal for increasing the quality and value of every home. Each 8 2/1" x 10 7/8," 80-page book has more than 190 two-color illustrations with easy-to-follow instructions.

Light on text and heavy on illustrations with step-by-step instructions, each paperback in the Quick Guide series contains enough checklists, diagrams, safety instructions, and tips to make it a useful reference for even novice do-it-yourselfers. -- Chicago Tribune
