David Toht, Editors of Creative Homeowner : Quick Guide: Siding: Step-by-Step Installation Techniques

before purchasing it in order to gage whether or not it would be worth my time, and all praised Quick Guide: Siding: Step-by-Step Installation Techniques:

0 of 0 people found the following review helpful. Very broad breadth. Minimal depth on specific topocs. By Customer Very broad breadth. Minimal depth on specific topocs. 12 of 12 people found the following review helpful. Too broad and general By gkk2001 I bought this book thinking I would learn everything I needed to know for a vinyl siding project. The book has one chapter on vinyl siding and many other chapters devoted to other forms of siding. Each subject is just broadly skimmed over essentially making it next to useless of a book. My recommendation, spend your money elsewhere. 0 of 0 people found the following review helpful. Okay By susie homemaker Not exactly what I was looking for.

This Quick Guide shows readers how to select, install, and repair siding as quickly and efficiently as a professional. The most essential information readers need to successfully handle each task is packed into this concise construction manual. Over 190 detailed drawings clearly illustrate the step-by-step instruction, which has been written with the do-it-yourselfer in mind. With the help of this Quick Guide, readers can add value to their home while enjoying the greatest possible savings in time, effort, and money.

"If you're looking for at-a-glance repair guides for the home, Quick Guides will prove perfect...packe(ed) with information...exceptional, clear illustrations." -The Midwest Book
