John Dennan : Raised Bed Gardening With Great Results: A book on plant rotation, soil, irrigation, designs, ideas and for growing vegetables in the home garden before purchasing it in order to gage whether or not it would be worth my time, and all praised Raised Bed Gardening With Great Results: A book on plant rotation, soil, irrigation,

designs, ideas and for growing vegetables in the home garden:

0 of 0 people found the following review helpful. It would have been nice to see some larger pics in color even in ...By Harlem grill I'm sorry the photos are poorly presented. It would have been nice to see some larger pics in color even in black and white and their so small you can't see them. It's not written clearly and spotty for information. Don't waste you money.

Raised bed gardening is not new but its popularity has taken a turn as many gardeners are experiencing excellent results. Having individual beds allows the gardener to have more control over pests, soil rotation and other elements needed to have a successful growing season. This book will help you start a very productive garden.
