M. J. Jefferson-Brown : Ramblers, Scramblers Twiners: High-Performance Climbing Plants Wall Shrubs

before purchasing it in order to gage whether or not it would be worth my time, and all praised Ramblers, Scramblers Twiners: High-Performance Climbing Plants Wall Shrubs:

0 of 0 people found the following review helpful. Five StarsBy Judy StevensonWonderful resource book. Glad to have this addition to our gardening library. Excellent service!0 of 0 people found the following review helpful. Nice textbook perfect condition Thank YouBy LJNice textbookperfect conditionThank You!4 of 4 people found the following review helpful. Unusual, Beautiful, UsefulBy KimmHWhat an unusual book dedicated to those free-spirited plants that ramble, scramble, and twine across our gardens. Very well done with a good balance of information and illustration - a book I pull off the shelf regularly.

Climbers dress up fences, disguise ugly areas, provide seclusion, and add lushness. Here are 500 high-performance

ramblers, scramblers, and twiners that will work in every zone of your garden. Practical advice on setting up effective supports, making a pergola, and avoiding damage to house walls.
