David Weingarten, Lucia Howard : Ranch Houses: Living the California Dream before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ranch Houses: Living the California Dream:

1 of 1 people found the following review helpful. Not what I was expecting By Sherry Cooper I was disappointed that it is just a "coffee table" book. I thought it would have floor plans of iconic ranch houses from the past. There is no substance in it, just a lot of pictures with blurbs about the photo. It is a book of pretty pictures, No stories of historical note, no stories of architectural note, no stories of how the California ranch evolved from a bungalow to a mid-century icon etc... I thought I was going to learn something and that is why I bought the book. I am going to post it to re-sell it. 1 of 1 people found the following review helpful. Nice pictures By Customer Beautiful picture. Would have enjoyed it more if it had the floor plans. 1 of 1 people found the following review helpful. Excellent service By MCR This boom was packaged well and is gorgeous. It has gorgeous pictures and interesting text. I look through it regularly and dream if design ideas for my own home.

With its archetypal open plan and reverence of indoor-outdoor living, the Ranch house is at the very heart of the California dream. When we picture California Ranch houses the low-slung, informal dwellings that engulfed suburbs after World War II we are thinking of just one part of a phenomenon that has its roots in early-nineteenth-century ranchos, and which continues today in houses that are startling and up-to-the-minute. Examples of the type have been called ranchos, ranchers, and California rambles. They have been styled Spanish, Japanese, and French; Monterey and International; Vernacular, Minimalist, and Modernist. From the 1797 Rancho Los Alamitos of Long Beach to such contemporary homes as the Miller Residence of Corte Madera, Ranch Houses unveils the great variety and the very finest examples of this multifaceted form. Including the work of such architectural luminaries as Cliff May, Richard Neutra, John Lautner, and Charles Moore, Ranch Houses is an essential resource for architects, home owners, and all

those who aspire to the indoor/outdoor lifestyle that is the California Dream.
