Adolf Loos, Le Corbusier, Johan Van De Beek, Beatriz Colomina : Raumplan Versus Plan Libre: Adolf Loos to Le Corbusier before purchasing it in order to gauge whether or not it would be worth my time, and all praised Raumplan Versus Plan Libre: Adolf Loos to Le Corbusier:

Originally published as a catalogue to accompany an exhibition with the same name in 1987, this new edition re-examines the respective merits of two giants of Modern Architecture Adolf Loos and Le Corbusier. As well as featuring writings by the two architects, the book illustrates their respective evolution, with detailed reference to their domestic projects, ranging from the Strasser House (1919) to the Last House (1932), and from the Maison Domino (1915) to Villa Savoye (1932). Features major contributions from Beatriz Colomina, Jan de Heer and Max Risselada,

among others.
